Summary

- Full Stack Developer with 5+ years of experience.
- Developing innovative and functional web-based applications for a Canadian-based start-up using expertise in Next.js, Node.js, Strapi, PostgreSQL, Tailwind CSS, MUI, and REST API.
- Skilled in data analysis and visualization using Python, Beautiful Soup, WordPress, Tableau, and Octoparse.
- Proficient in designing and developing web applications using front-end and back-end technologies such as Laravel, HTML5, JavaScript, jQuery, CSS Bootstrap, SASS, AJAX, and JSON.
- Strong communication, collaboration, and problem-solving skills.
- Ability to work effectively in a team and adapt to new technologies and environments.
- Passionate about learning and implementing new technologies to improve application performance and user experience.
- Seeking a challenging position to further develop my skills and contribute to innovative projects.

Skills

•••••	JavaScript	•••••	Flask
•••••	Next.js	•••••	Flutter
•••••	React.js	•••••	Docker
•••••	HTML, CSS	•••••	Git, GitHub
•••••	Tailwind CSS	•••••	SEO
•••••	Bootstrap	•••••	Adobe XD
•••••	PHP v5+	•••••	WordPress
•••••	Laravel	•••••	Octoparse
•••••	Python	•••••	Tableau
•••••	MySQL	•••••	Java, Dart
•••••	MS SQL Server	•••••	Android

Experience

Full Stack Developer (Remote)

FundEvolve Inc.

Nov-2022 – Present

Ontario, Canada

- Designed and developed web applications using front-end and back-end technologies,
- Worked closely with a team of developers, designers, and stakeholders to deliver high-quality web applications.
- Developed scalable, efficient, and maintainable code that adhered to best practices for software development.
- Participated in code reviews, debugging sessions, and troubleshooting efforts to identify and resolve issues in a timely manner.
- Conducted testing and debugging to ensure that web applications functioned correctly across different browsers and devices.
- Deployed web applications to production environments, ensuring that they were scalable and met performance requirements.

Next.js; Node.js; Strapi; PostgreSQL; Tailwind CSS; MUI, Rest API.

Data Analyst

Mustafa Group

Apr-2021 – Sept-2021

Kabul, Afghanistan

- Identified relevant data sources
- Collected and scraped data from sources using Python and Octoparse.
- Cleaned and assessed the quality of data to ensure accuracy and organised data into usable formats
- Developed, implemented, and maintained databases for storing and accessing data
- Organising data into usable formats
- Developed an online shopping store.
- Utilized WordPress as a content management system for the online store
- Generating information and insights from data sets and identifying trends and patterns
- Data analysing and Creating visualisations of data using **Tableau**

Python; BeautifulSoup; WordPress; Tableau; Octoparse; VS Code; GitHub; MySQL.

Web Developer

Reliance Power Group

Jun-2021 – Oct-2021

Kabul, Afghanistan

- Identified client specifications and user requirements, and worked closely with teams and clients to design and develop web applications using front-end and back-end technologies.
- working closely with teams and clients, and testing and documenting software for Application.
- Designed and implemented the database of RPC MIS, ensuring efficient and scalable data storage and retrieval.
- Conducted functionality testing and debugging of code to ensure that web applications functioned correctly across different browsers and devices.
- Overseen junior developers and evaluated their performance, guiding them through their daily tasks to ensure high-quality code output

Python; Flask; HTML5; JavaScript, jQuery; CSS Bootstrap; SASS, AJAX; JSON; MySQL; WAMP; VS Code; GitHub.

Web Developer

Kateb University

Sep-2018 - Nov-2019

Kabul, Afghanistan

- Identified user and system requirements for various types of websites and applications.
- Developed software requirement specifications (SRS) through research and analysis.
- Planned website development by converting mock-ups into usable web presence coding.
- Addressed clients' unexpected requirements (CUR) by communicating with customers to better understand SRS and deliver effective solutions.
- Prioritized software development projects, set timelines, and assigned tasks to team members.
- Managed team members and guided them through analyzing and solving problems.
- Documented technical and functional database requirements and created and implemented database designs and data models.

PHP; Laravel; HTML 5; JavaScript, jQuery, CSS Bootstrap; AJAX; JSON; MySQL; WAMP; VS Code; GitHub.

Web Developer

Kateb University

Jul-2016 - Aug-2017

Kabul, Afghanistan

- Conducted website test for responsiveness, clarity, and effectiveness.
- Planned website development, converted mock-ups into usable web app.
- Led team and assigned tasks to team members.
- Oversaw technical issues and troubleshooting requests to resolve surfaced problems.
- Maintained and deployed MIS to production stage.
- Designed, implemented database and alteration as required.
- Conducted testing and debugging of the code to ensure functionality and resolve any errors.

PHP; HTML 5; JavaScript, jQuery, CSS Bootstrap; AJAX; MySQL; WAMP; VS Code; WeBuilder; GitHub.

IT Technician

Friends Internet Networking and Net Club (ISP)

Jan-2010 - Jan-2012

Quetta, Pakistan

- Established, repaired, and optimized networks by installing wiring, cabling and devices.
- Set up hardware and software in optimal configurations to meet network performance requirements.
- Investigated and corrected problems with printers, copiers, and other peripheral devices.
- Collaborated with vendors to locate replacement components and resolve problems. Such routers and switches replacement.
- Install, configure, and manage software and their functions according to specifications.
- Assists users with operation of technology equipment and provides basic instruction, as necessary.

Volunteer

Co-organizer

Oct-Nov 2019
Kabul, Afghanistan

ICPC Kabul Asia Regional Programming Contest

Web Developer and IT Officer

Aug-Sep 2019
Kabul, Afghanistan

ICPC Kabul Asia National Programming Contest

Web Developer and IT Officer

Nov-Dec 2018
Kabul, Afghanistan

ACM/ICPC Kabul Asia Regional Programming Contest

IT Manager

Jul-Nov 2018
Kabul, Afghanistan

ACM/ICPC BootCamp Training Sessions

Web Developer and IT Technician

Aug-Nov 2017
Kabul, Afghanistan

ACM/ICPC Kabul Asia Regional Programming Contest

Web Developer and IT Technician

Jun-Aug 2017
Kabul, Afghanistan

ACM/ICPC Kabul Asia National Programming Contest

Freelance Projects

Dars e Now

Sept-2021

[Dars e now](#)

I developed Dars e Now, an online platform for Kawsar Educational Center in Afghanistan, providing students with access to mock Kankor exams and uploaded materials. I created an intuitive system for administrators to manage exams and materials and assign credits for student access. I used Laravel and MySQL for backend development, and Bootstrap and MathType for frontend development.

PARAS – Refugees Guide

Sept-2021

[Play Store Link](#)

PARAS - REFUGEES GUIDE is an app designed to help refugees find the humanitarian services available for them in the country they are in. Moreover, the app is developed using Flutter Framework and it has localized in five languages.

Personal Projects

Hair and Beauty Salon MIS and Website

Sept-2019-present

www.salon.imorgroup.com

Developed a PHP Laravel and MySQL-based management system for beauty salons with features such as product management, online appointments, and billing.

Hesab Ketab Mobile App

May-2019-present

[Play Store Link](#)

Created a Google Flutter-based mobile app with PHP Laravel backend and MySQL database for tracking and calculating electricity, water bills, and groceries.

Corona Virus Afghanistan Website

Feb-2019

www.corona.imorgroup.com

Developed a Python Flask-based website for tracking corona incidents in Afghanistan with features such as data fetching from Wikipedia and predictions.

Language

••••• Dari	Native
••••• English	Business Proficient
••••• Urdu/Hindi	Intermediate High
••••• Pashto	Intermediate low

Education

Bachelor of Science in Computer Science

Kateb University

Mar-2013 – Nov-2016

Kabul Afghanistan

High School Diploma

Noor High School

Mar-1999 – Nov-2011

Quetta, Pakistan
